Work Experience

User Experience Designer - University of Pittsburgh

November 2020 - Present, Pittsburgh PA

- Led the user experience design for projects through the University's Center for Analytical Approaches to Social Innovation (CAASI).
- Assisted in project management duties like scheduling meetings, assigning roles, and reaching out to department partners.

Projects

UX and Web Developer - 412Connect

November 2020 - April 2021, Pittsburgh PA

- Developed empathetic personas and scenarios which were utilized to inform the user needs and design of the product.
- Created sketches and flows that met the needs of the personas.
- Iterated through prototypes of the product in Figma, from sketches to high-fidelity prototypes used in production of the final website.
- Implemented prototypes using Bootstrap, HTML, CSS, JavaScript, and Python.

User Experience Designer - A Whole Different Gear

January 2021 - February 2021, Pittsburgh PA

- Created personas for the product and created scenarios from selected personas to better understand goals and pain points.
- Collaborated with a team of students on designing wireframes and prototypes for the product.
- Constructed a style guide based on the client's needs and users.
- Created final design within time deadlines and recieved positive evaluation.
